2010-11 Certified Livestock Manager Training Workshops

UNIVERSITY OF ILLINOIS
EXTENSION

College of Agricultural, Consumer and Environmental Sciences

We cannot guarantee space for all walk-ins. Please register!

The Illinois Livestock Management Facilities Act of 1997 requires livestock producer training through the CLMT program (see www.livestocktraining.com and www.EZregs.illinois.edu for details). Some of the new training workshop topics include:

- ◆ Winter spreading of manure-planning for extreme conditions
- ◆ Feed storage runoff control-problems and solutions
- ◆ Foaming manure storages update-what's going on, what to do
- ◆ Manure application in no-till
- ◆ Tools for helping you manage manure-EZregs, IMMP, Manure Share

The training manual, in use since 2003, is the national Livestock and Poultry Environmental Stewardship (LPES) Curriculum. These manuals are available and are strongly recommended for those new to the CLM program. On-line quiz questions and state exam questions come from the LPES manual.

Workshops designated as beef/dairy emphasis will concentrate on those production facilities. Pick the meeting that fits your schedule and interests. Plan to attend the CLM training workshop in your area and renew your state CLM certificate.

Ted Funk
Extension Specialist, Agricultural Engr.
Dept. of Agr. & Bio. Engineering

Workshop Pre-Registration Encouraged

In order to receive your manual prior to the workshop, pre-registration is strongly encouraged. As we cannot cover the entire manual in the workshop, it is your responsibility to read the manual before you attend the workshop. This will also greatly improve your chances of achieving a passing score if you are taking the exam. The Dept. of Agriculture's exam questions are taken from the manual - NOT from the workshop presentation.

Registration is easy...

1. Call ACES Marketing & Distribution at 1.800.345.6087. **Please have your credit card ready.** Without proper remittance, your registration will not be processed.
2. Indicate the workshop you would like to attend and if you will need a manual/CD. (If you have a manual, 2003 or newer, you will not need to purchase a new one.)

Registration cost:

Single Registration	\$30.00
Multiple**	\$30 first person \$20 each additional
CLM Manual only	\$55.00 + \$7.50 s&h
CLM Manual & CD	\$80.00 + \$7.50 s&h
CLM Manual CD only	\$25.00 + \$7.50 s&h
Walk-ins	\$92.00 per person

**** Registrations must be from the same farm and registered at the same time.**

We cannot guarantee space for all walk-ins. Please register!

Options for Illinois Livestock Producers

In Illinois, livestock facilities with more than 300 animal units must have someone certified in manure handling procedures. To become certified, producers with 300-999 animal units can either attend a University of Illinois Extension C.L.M.T. workshop or take and pass the Illinois Department of Agriculture administered Certified Livestock Manager exam. Producers with over 1,000 animal units are required to do both.

University of Illinois Extension also offers a series of five quizzes on the internet. Passing all five quizzes is the equivalent of having attended the C.L.M.T. morning workshop for becoming a Certified Livestock Manager.

C.L.M.T. Quiz Registration Information

There is no cost for the on-line quiz option. The only cost is for the C.L.M.T. manual. To sign up:

1. Call ACES Marketing & Distribution at 1.800.345.6087 to purchase your C.L.M.T. manual - if you do not already have one.
2. Call or email Randy Fonner your address and that you would like to try the quizzes.
Randy Fonner, C.L.M.T. Coordinator
