

Coffeecake With Topping

Yield: 9-12 servings

Ingredients

Topping:

- 1/4 cup firmly packed brown sugar
- 1 teaspoon cinnamon
- 1 tablespoon all-purpose flour
- 1 tablespoon butter or margarine
- 1/2 cup chopped nuts (optional)

Coffeecake batter:

- 1 egg
- 1/2 cup granulated sugar
- 1/2 cup milk
- 2 tablespoons melted fat or oil
- 1 cup sifted all-purpose flour
- 1/2 teaspoon salt
- 2 teaspoons baking powder

Order of Work

1. Make the topping first. Measure the brown sugar, cinnamon, and flour into the small mixing bowl and mix well.
2. Measure the fat. Cut it into the flour-sugar-cinnamon mixture. Ask someone to show you how to do this.
3. Add nuts (if you are using them) and mix well. Set topping aside until you need it.
4. Preheat the oven to 375 degrees F.
5. Lightly coat the baking pan with non-stick cooking spray.
6. Break the egg into the mixing bowl, and beat with a whisk or fork.
7. Add the sugar, milk, and melted fat or oil to the egg, and stir until all is mixed.
8. Sift the flour once; then measure it. Add to second small mixing bowl. Add salt and baking powder. Stir flour mixture.
9. Add flour mixture to the egg mixture, and stir only until dry ingredients are wet. The batter will look lumpy. Too much mixing causes tunnels.
10. Put into the prepared pan. (Use the rubber scraper so that you won't waste batter.)
11. Use the mixing spoon to sprinkle the topping evenly over the top of the batter in the pan.
12. Put into the preheated oven. Bake about 25 minutes. The coffeecake will spring back when lightly touched and begin to pull away from the edge of the pan when it is done. The top will be a golden color dotted with the dark brown topping.
13. Take out of the oven. Allow pan to cool. Cut cake into pieces while it is still in the pan. Use turner to remove cake pieces from the pan. Serve warm.
